IGS-TC-H GEOHYDRAULICS WEEK

Geohydraulics in New Orleans, LA | November 7 - 9, 2017

Two Events Supporting the Development & Implementation of Geohydraulic Technology

The **IGS Technical Committee on Hydraulics** is pleased to announce **IGS TC-H Geohydraulics Week**, in **New Orleans, LA, November 7 – 9, 2017**.

The IGS TC-H will host a committee meeting and Think-Tank to discuss three emerging technical topics. This discussion will bring together some of the top contributors in the geohydraulics community to strategize about the path forward on each subject, including considerations of technical consensus vs continuing technical needs, educational efforts, and potential publications. Selected individuals will be requested to serve as facilitators to foster discussion and interaction.

For event 2, there will be a two-day engineering seminar on state-of-practice design & construction for coastal and river protection in North America. Attendees at this course will be exposed to the range of technologies available to address hydraulic management. Instructors will address design: criteria, methods & codes. They will provide guidance for the evaluation of product performance and selection. Attendees will receive 16 PDH or 2 CEUs.

EVENT 1 - Geohydraulic Experts Think Tank & Committee Meeting

*Renaissance Pere Marquette
New Orleans, LA
November 7, 2017*

\$100/person

EVENT 2 – Geohydraulics I - Geosynthetic for Coastal & River Protection

*Renaissance Pere Marquette
New Orleans, LA
November 8 – 9, 2017*

\$650 Member | \$670 Non-Member

Presented by: The International Geosynthetic Society, Technical Committee on Hydraulics.

Exhibit And Sponsor Opportunities are available.

IGS-TC-H GEOHYDRAULICS WEEK

Geohydraulics in New Orleans, LA | November 7 - 9, 2017

Two Events Supporting the Development & Implementation of Geohydraulic Technology

EXHIBITING & SPONSORING OPPORTUNITIES

Small-Stand/Table-Top Exhibition at Geohydraulics I – Geosynthetic for Coastal & River Protection

- \$1,000 IGS Corporate Member | \$1,200 Non-Member
- Setup Tuesday November 7 (late afternoon/evening), Exhibit November 8 & 9
- (4) Coffee breaks, (2) lunches & (1) reception to be held in the exhibit area
- Due to the integrated layout, exhibits must be setup no later than 8:30 am Wednesday morning so as not to interfere with the seminar. Space is limited to 15 stands.

Sponsorship at Geohydraulics I – Geosynthetic for Coastal & River Protection

- \$1,500
- Company Branding on banners, program and proceedings
- 5-7 minute presentation to the attendees during the case study section of the program
- Recognition on website and electronic promotions
- Recognition during breaks and the evening reception

Sponsorship at TC-H – Geohydraulics Think Tank

- Coffee Break Sponsor \$500 each (2 available)
- Lunch Sponsor \$1,000
- Reception Sponsor \$1,500
- Sponsors will each have an announcement, signage on tables during their sponsored meal/event and will be recognized in collateral materials. Sponsors may also provide branded materials to be used during their sponsored break/meal (eg: napkins, koozies, etc.).
